### Limited Warranty

The BWA15AA003 supports a Multi-Connect function that allows the headphones to pair with two mobile devices at the same time. To connect a second Bluetooth enabled device to your headphones, please follow these steps below:

1. Make sure that the Headphones are connected to the first device (refer to “PAIRING THE HEADPHONES”).
2. Now power the Headphones OFF.
3. Press and hold the [ ] button for approximately 7 seconds until the LED Charging Indicator light flashes RED and BLUE. The headphones are now in pairing mode.
4. Set the second mobile device to search for Bluetooth devices.
5. When the second mobile device finds the headphones, select "BW BASS DYNAMIX" from the list of found devices.
6. If required, enter the password 0000. Select OK or YES to pair.
7. After a successful registration, the LED Indicator light with slowly blink BLUE.
8. On the first connected device, go to Bluetooth settings and select "BW BASS DYNAMIX" to reconnect to the headphones.
9. You are now connected to both devices.

### Legal Information

Caution: Any changes or modifications not expressly approved could void the user’s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
