This phone is factory set to tone (T) dialing.

note: The telephone is factory set to the “T” (tone) setting.

Redial
To redial the last number called use the redial feature. This feature is usually located as a button marked “redial” or “call waiting.”

1. Pick up the handset.
2. Press the [redial] button.
3. The last number called is redialed.

Tone/Pulse Dial Mode
To adjust the handset volume
To adjust the handset volume use the switch located on the right side of the handset.

1. Adjust the volume by turning either switch clockwise (for more volume) or counterclockwise (for less volume).
