Using the wireless Bluetooth® keyboard

Turning the keyboard on/off
Slide the switch as shown below, the indicator light will briefly turn on.

Pairing the keyboard to the tablet
1. Turn on the keyboard.
2. Press the “Connect” button, then the Bluetooth indicator light will blink, and the keyboard is ready to pair with the tablet.

3. Go to the tablet’s Settings, and make sure that Bluetooth is turned on, then select “Bluetooth Keyboard” as shown below.

4. Using the keyboard, type the password shown on the tablet, and press enter.

5. After pairing successfully with the tablet, “Bluetooth Keyboard Connected” is displayed.

Charging the keyboard:
Connect the keyboard to a wall outlet using the included charger and Micro USB cable, or to a computer using the included Micro USB cable.

Use the included tablet stand with your wireless keyboard.
