Getting Started

Turning the Tablet On or Off

To turn the tablet on:
Press and hold the **Power button** until the screen turns on. Once the lock screen appears the tablet will be ready for use.

To turn the tablet off:
1. Press and hold the **Power button** until the “Power off” menu appears.
2. Tap the menu to turn off the tablet, or tap elsewhere to cancel.

Turning the Screen On or Off (Standby)

When the tablet is on, you can turn off the screen to conserve battery power. Simply press the **Power button** once to put the tablet in Standby mode. Press the **Power button** again to wake the tablet from Standby mode.

Waking the tablet

Press the Power button to wake the tablet from **Standby mode**.

To begin using the tablet, swipe up on the lock icon.

**Note:** If you have enabled security, you will need to enter your password or PIN code to unlock.

To conserve battery power, the screen will automatically turn off when the tablet is not in use (between 15 seconds and 30 minutes). This option can be adjusted by accessing the **Display > Sleep** menu in the **Settings** application.
About Applications
To open an application, tap the application icon on the home screen or in the “All Apps” folder

All Apps folder:

Preinstalled Applications
Some applications have been installed on your tablet for your convenience.

These applications include:

- Browse the web.
- Perform simple mathematical operations.
- Check your e-mail.
- Google Play music.
- Access the Settings menu to adjust the tablet’s options.
- Access DVD mode
- Play FM Radio

Installing Applications
You can install additional applications from the Google Play Store app.

Note: To allow the installation of apps from other sources, open the Settings application and turn on the Security > Unknown Sources toggle.
Connect to a Wi-Fi network

The Notification bar displays icons that indicate your tablet’s Wi-Fi status.

⚠️ Notification that an open Wi-Fi network is in range.

🔗 Connected to a Wi-Fi network.

To turn Wi-Fi on or off:
- Go to the Home screen; press the Home key.
- Open the Settings application
- Under the Wireless & Networks section, tap on Wi-Fi
- Tap on the toggle to turn Wi-Fi on or off.

When Wi-Fi is on, the tablet will look for and display a list of available Wi-Fi networks.

If a network that you have connected to previously is found, the tablet will connect to it. If you don’t see your network in the list, you can force the tablet to re-scan. To scan for networks, tap the Menu key on the top right, and then tap Refresh.

Selecting an available Wi-Fi network:
In the Wi-Fi settings section, tap a network in the list to select it
- If the network is unsecured, the tablet will automatically connect.
- If the network is secured (as indicated by a lock icon), you will be prompted to enter a password to connect.

Tap the password field to show the on-screen keyboard. After entering the password, tap Connect to confirm.

When you have successfully connected to a Wi-Fi network, the Wi-Fi signal-strength will be indicated by the Wi-Fi icon in the Notification bar at the top of the screen.

To manually connect to a hidden Wi-Fi network or to set up advanced Wi-Fi configuration, select the last option labeled “Add Network” and enter in the connection details.

Mounting the device in a Car

Use the supplied mounting kit to install the device on the back of the vehicle’s headrests.

1. Align the angled-support bracket and bolt to the screw hole on the back of the device. Turn the bolt clockwise and secure the angled-support bracket.

2. Lift the headrest off its leg supports. Align the horizontal support with the headrest leg slots and ensure the horizontal-support rests securely on the top of the car seat. Reattach the headrest.

3. Grip the device firmly with both hands and slot the angled-support bracket firmly into the horizontal-support until it clicks. Ensure the entire unit is secure.

4. Adjust the angle of the device and then secure it by tightening the bolt on the right.

5. To remove the device from the horizontal-support, firmly squeeze the release buttons on either side of the angled-support and pull while supporting the device with the other hand.
The horizontal-support can be adjusted to fit your car’s headrest by loosening its four (4) 3/4” (20mm) bolts and tightening them as necessary.

Included are four (4) additional 1.0” (25mm) bolts have been provided for oversized headrest supports.
FCC Part 15:
This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Re-orient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Do not attempt to repair or modify this equipment. Warning: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

“This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.”

Shielded USB cables must be used with this unit to ensure compliance with the Class B FCC limits.

Information Regarding Exposure to Radio Frequency Energy
Your Device is designed and manufactured not to exceed the emission limits for exposure to RF energy set by the Federal Communications Commission of the United States (FCC). Information on your Device is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/ea/ after searching on the FCC ID for your Device, which can be found on the back of the Device.
